1 [Parallel processing in computational linguistics](#)

Helmut Schnelle, Garry Cottrell, Paradip Dey, Joachim Diederich, Peter A. Reich, Lokendra Shastri, Akinori Yonezawa

 August 1988 **Proceedings of the 12th conference on Computational linguistics - Volume 2**

Publisher: Association for Computational Linguistics

 Full text available: [pdf\(488.34 KB\)](#) Additional Information: [full citation](#), [citations](#)

2 [Abstract user interface representations: how well do they support universal access?](#)

Shari Trewin, Gottfried Zimmermann, Gregg Vanderheiden

 June 2002 **ACM SIGCAPH Computers and the Physically Handicapped , Proceedings of the 2003 conference on Universal usability CUU '03**, Issue 73-74

Publisher: ACM Press

 Full text available: [pdf\(155.89 KB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

This paper examines four XML languages for abstract user interface representation: UIML, XIML, XForms and AIAP. It discusses whether the high level architectures of these languages support the requirements of universal usability by allowing use of personal interfaces. Specific technical requirements include separation of data from presentation, explicit declarative representation of interface elements, their state, dependencies, and semantics, flexibility in inclusion of alternative resources an ...

Keywords: AIAP, UIML, XForms, XIML, abstract user interface, device-independence, modality-independence, universal usability

3 [Management of APL time-sharing activities](#)

J. Higgins, A. Kellerman

 January 1972 **Proceedings of the fourth international conference on APL**

Publisher: ACM Press

 Full text available: [pdf\(1.48 MB\)](#) Additional Information: [full citation](#), [abstract](#), [citations](#), [index terms](#)

The management of a terminal system at a university or industrial installation provides a formidable task. The user needs take various forms: (a) an educational program in the syntax of the language and techniques of programming to take advantage of the attributes of the language, (b) consultation on programming problems (both trivial requests and those involving desing, format, and construction of complex tasks, (c) publicity on operational considerations such as hours of operation, the lo ...

4 Design issues in the development of a modular multiprocessor communications network

M. A. Franklin, S. A. Kahn, M. J. Stucki

April 1979 **Proceedings of the 6th annual symposium on Computer architecture**

Publisher: ACM Press

Full text available: pdf(518.34 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

The design of a modular crossbar network that can be used to support a multiprocessor is reviewed in this paper. The network is viewed at a functional level and the objectives, motivations and resultant design decisions are discussed. Two of these decisions relating to the nature and depth of pipelining in the network are examined in detail. The network designed is expandable in an easy fashion, flexible and suitable for large-scale integration.

5 P9: A framework to provide integrated online documentation

Sogo Tsuji, Yoshikazu Yamamoto

October 2001 **Proceedings of the 19th annual international conference on Computer documentation**

Publisher: ACM Press

Full text available: pdf(139.76 KB) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

As the variety of software users is increasing widely, online help systems are required to provide appropriate information for users. It means the help documents are suited to users' knowledge and the context in users' accesses. This paper addresses how online help systems can meet these requirements, and proposes a design framework called SOF (Scenario-based Online help Framework). In SOF, we introduce our proposed scenario-based design of help documents. The scenario is a meta-model of the help ...

Keywords: document meta-model, online help system design framework, scenario-based design

6 From documenting design to design by documenting

Alberto Faro, Daniela Giordano

October 1997 **Proceedings of the 15th annual international conference on Computer documentation**

Publisher: ACM Press

Full text available: pdf(1.24 MB) Additional Information: [full citation](#), [references](#), [index terms](#)

Keywords: case-based reasoning, design memories, scenario-based design

7 Computer-human interface technology at deep space network

Alvin Ellman, Magdi Carlton

April 1993 **INTERACT '93 and CHI '93 conference companion on Human factors in computing systems**

The **"AND"** operator is unnecessary -- we include all search terms by default. [\[details\]](#)

Tip: Try removing quotes from your search to get more results.

Your search - **"legal representative " and "insurance company" and "appointing company"** - did not match any articles.

Suggestions:

- Make sure all words are spelled correctly.
- Try different keywords.
- Try more general keywords.
- Try fewer keywords.
- Try your query on the entire web.
